

3054 Litre Septic Tank Specifications

The Island Septic Tank is a dual-purpose, cost-effective solution for managing residential wastewater in areas without access to municipal sewer systems.

Engineered for reliability and ease of installation, it is most commonly specified for new builds, rural properties, and residential developments requiring on-site wastewater treatment. The 3054-litre model is typically suited to households of 1–5 occupants and complies with AS1546.1:2008 standards. *Installation and system design should always align with local council regulations and site-specific conditions.
